

Seattle City Light

# FLEET ELECTRIFICATION PROGRAM

Get Expert Help and Incentives to Go Electric

## FLEET ADVISORY SERVICES

Now is the time to move your fleet forward with electrification, and Seattle City Light is here to help. Our team offers **free, expert guidance** at every step on your journey to fleet electrification.

### Benefits of Electrifying Your Fleet

- Reduced long-term maintenance and fueling costs
- Reduced emissions and carbon footprint
- Increased reputation as a leader in sustainability and innovation
- Increased community recognition for your fleet

## Get a Free, Comprehensive Fleet or Electric Vehicle (EV) Charging Assessment in Four Easy Steps

### FLEET ASSESSMENT

1. Contact us to connect with a fleet **electrification expert**.
2. Review your **current fleet** with a trusted advisor.
3. Discuss **personalized recommendations** on electric vehicles to improve your bottom line, the community, and the environment.
4. Receive a **free customized analysis** with estimated cost savings and greenhouse gas reductions.

### EV CHARGING ASSESSMENT

1. Contact us to connect with an **EV charging expert**.
2. Review your property with an **industry expert**.
3. Discuss **personalized recommendations** for electric vehicle charging solutions.
4. Receive a **free comprehensive report** outlining your site's existing electrical capacity and EV charging potential.
