

We want your feedback: Doing Business with the City of Seattle

Are you a minority- or woman-owned business?

The City of Seattle wants to hear from local business owners, like yourself, about your experience doing business with us. We want to know what is working, what barriers you face, what prevents you from pursuing or getting work with the City of Seattle, and what we could do to improve our processes. Our goal is to better support local, minority- and women-owned businesses and improve access to business opportunities. To do this, we need to hear from you.

Working with a third-party consultant, we've created a survey: Doing Business with the City. We want to hear your feedback, whether you have done business with the City of Seattle in the past, or not.

Scan the QR code to take the survey!

- Approx 5-7 minutes to complete
- Will be open until November 14
- Survey responses are anonymous
- Available in English and Spanish, additional languages available by request
- To access the Spanish version, go to <https://tinyurl.com/yc5vxsf2>
- Paid focus group and interview options
