10 Internship Ranking

Read through this section carefully. You will use the drop down menu to select and add your internship choices to your profile. After choosing each internship, make sure to click “Add Internship.”

Welcome ✓ Career Interests ✓ Internship Details ✓ Internship Ranking Submit

Please read carefully. This next section will ask you to list up to ten internship positions where you would like to be placed and then place them in your order of preference. Refer to the list/dashboard of internship opportunities that you should have received in an email. If you experience any issues viewing the list, email us at syep@seattle.gov.

Some important things to note:

- Positions are limited so not everyone will be able to get into their top choices.
- Listing more internships increases your chances of being placed at an SYEP internship.
- Only list the internships that you have a strong interest in (up to ten). For example, if you are interested in one position total, only input that internship. Note that this would mean you may not be able to participate with SYEP if there are not enough slots available for that position.
- Be mindful of the internships that are in-person or hybrid. Consider how you will get to the work location.

Internship Preferences:
Select internships from the dropdown and click "Add Internship" to add a preferred internship to your list. Then place them in your preferred order below. You may select up to 10.
