Proposed sidewalk café on new East West Streets amenity wood decks and change to existing sidewalk cafe.

Staff report: The Board approved the East West Streets project in July 2022 after a series of briefings. While the design included extensions of sidewalks with wood platforms as part of the public amenity there was no discussion at the time for guidelines for their use. After receiving the first application to use a wood deck by a business as a sidewalk café, staff called a meeting with the Alliance for Pioneer Square who was a stakeholder in the design the Office of the Waterfront and SDOT street use, it was discussed that there were not other expectations as part of the project planning, and that use by a business was welcome and subject to other sidewalk café regulations. However because this is a different condition and materials the use of the space that may require additional consideration. Therefore the proposal is being brought to the Board as an opportunity for special consideration of unique factors about the space. The Board may want to adopt specific guidelines for the use of these spaces at a later date.

Business that have a liquor license will also be required to comply with any regulations set by the Liquor Control Board. For example it is assumed that they would be required to have a railing next to the street and not be eligible for a fenceless café and the they would have to have the café area at least partially in front of the business. In this case the proposal meets those two requirements. Because this is a new surface made of wood there was a desire for the railing installation to not make holes in the wood. The application was amended to be a clamp on railing. The wood bollards are considered art

work and there is a desire for the bollards to not be used as tables, not have attachments or otherwise be damaged. There was a desire to protect the surrounding planting. Another consideration about this proposal is that the application shows that an existing sidewalk café what installed with a different design and material color than was previously approved. The previous approval was for a dark black brown color but a silver railing was installed. The change from what was approved has to be considered for this proposal. The proposal is to keep the existing café area with the silver railing and add this railing in black on the wood decking.

Draft Motion:

I move to recommend granting a Certificate of Approval for. All per the applicant's submittal.

The Board directs staff to prepare a written recommendation of approval based on considering the application submittal and Board discussion at the Feb 5, 2025 public meeting and forward this written recommendation to the Department of Neighborhoods Director.

Seattle Municipal Code

23.66.030 Certificates of Approval required

Certificate of approval required. No person shall alter, demolish, construct, reconstruct, restore, remodel, make any visible change to the exterior appearance of any structure, or to the public rights-of-way or other public spaces in a special review district, and no one shall remove or substantially alter any existing sign or erect or place any new sign or change the principal use of any building, or any portion of a building, structure or lot in a special review district, and no permit for such activity shall be issued unless a certificate of approval has been issued by the Department of Neighborhoods Director.

Rules for the Pioneer Square Preservation District

XIII. SIDEWALK CAFES

Sidewalk cafes may not impede the flow of pedestrian traffic. Movable structural elements that can be brought back against the building wall or elements that can be removed when not in use will generally be required if some structural element is necessary. No walls or roofs of any kind are permitted to enclose sidewalk cafes. Free-standing and table umbrellas are permitted, however, the Board may limit their number and placement to ensure compatibility with transparency and signage regulations. (7/03) Planter boxes are discouraged and will be permitted only in exceptional circumstances.

Materials for any structural elements on the sidewalk should be of durable, weatherproof, and vandal-proof quality. The Board will consider the

compatibility of the color and design of structural elements with the building facade and the character of the District. The maximum allowable height of structural elements, including fencing, is 42". (7/03)
