Transportation Management Plan Summary

Transportation Management Plan Elements

TMP Requirements (SMC 23.69.030.F, 23.54.016.C)

- **Overview of campus access/circulation**
- **Summary of connections to adjacent transit and pedestrian facilities**
- **Definition of proposed campus parking**
- **Summary of loading and service facilities**
- **Identification of single occupancy vehicle (SOV) targets**
- **Strategies to reduce SOV trips**

TMP SOV Reduction Focus Areas

SOV Target – 50%

TMP Strategies

1. Transit

Focuses on incentives such as:

- subsidies
- guaranteed ride home
- transit service priorities
- future light rail infrastructure

2. Shared-Use Transportation

Focuses on:

- carpool/vanpool incentives (subsidies, preferred parking, etc.)
- promotion
- matching support

TMP Strategies

3. Parking Management

- **Manage parking through pricing and parking supply**
- **Goal to provide adequate supply for patients and visitors, while not providing a surplus that encourages employees to drive, or not enough parking that results in increased neighborhood spill over**
- **On-going monitoring of parking supply as part of the CTR survey process (every 2 years) or at the time of future project development**

TMP Strategies

4. Bicycle

- **Currently a low mode choice on the campus**
- **Strategies focus on encouraging increased use**
- **Provide ample campus parking as determined through monitoring studies completed as part of the CTR survey process**
- **Accommodate e-bike charging in secured areas**
- **Provide shower and changing facilities as needed based on demand**

TMP Strategies

5. Pedestrian

Provide safe and accessible routes on campus and to the adjacent public right-of way

- ADA requirements
- Lighting
- Connections to on-campus transit

6. Marketing and Education

- Provide multiple platforms and opportunities for understanding incentives
- Facilitate connections for vanpool/carpool usage

TMP Strategies

7. Telecommuting

- **Limited opportunities due to HIPA requirements and the nature of health care**
- **Offered as applicable**

8. Institutional Policies

- **Parking regulations**
- **Manage work schedules where possible to reduce peak hour travel**

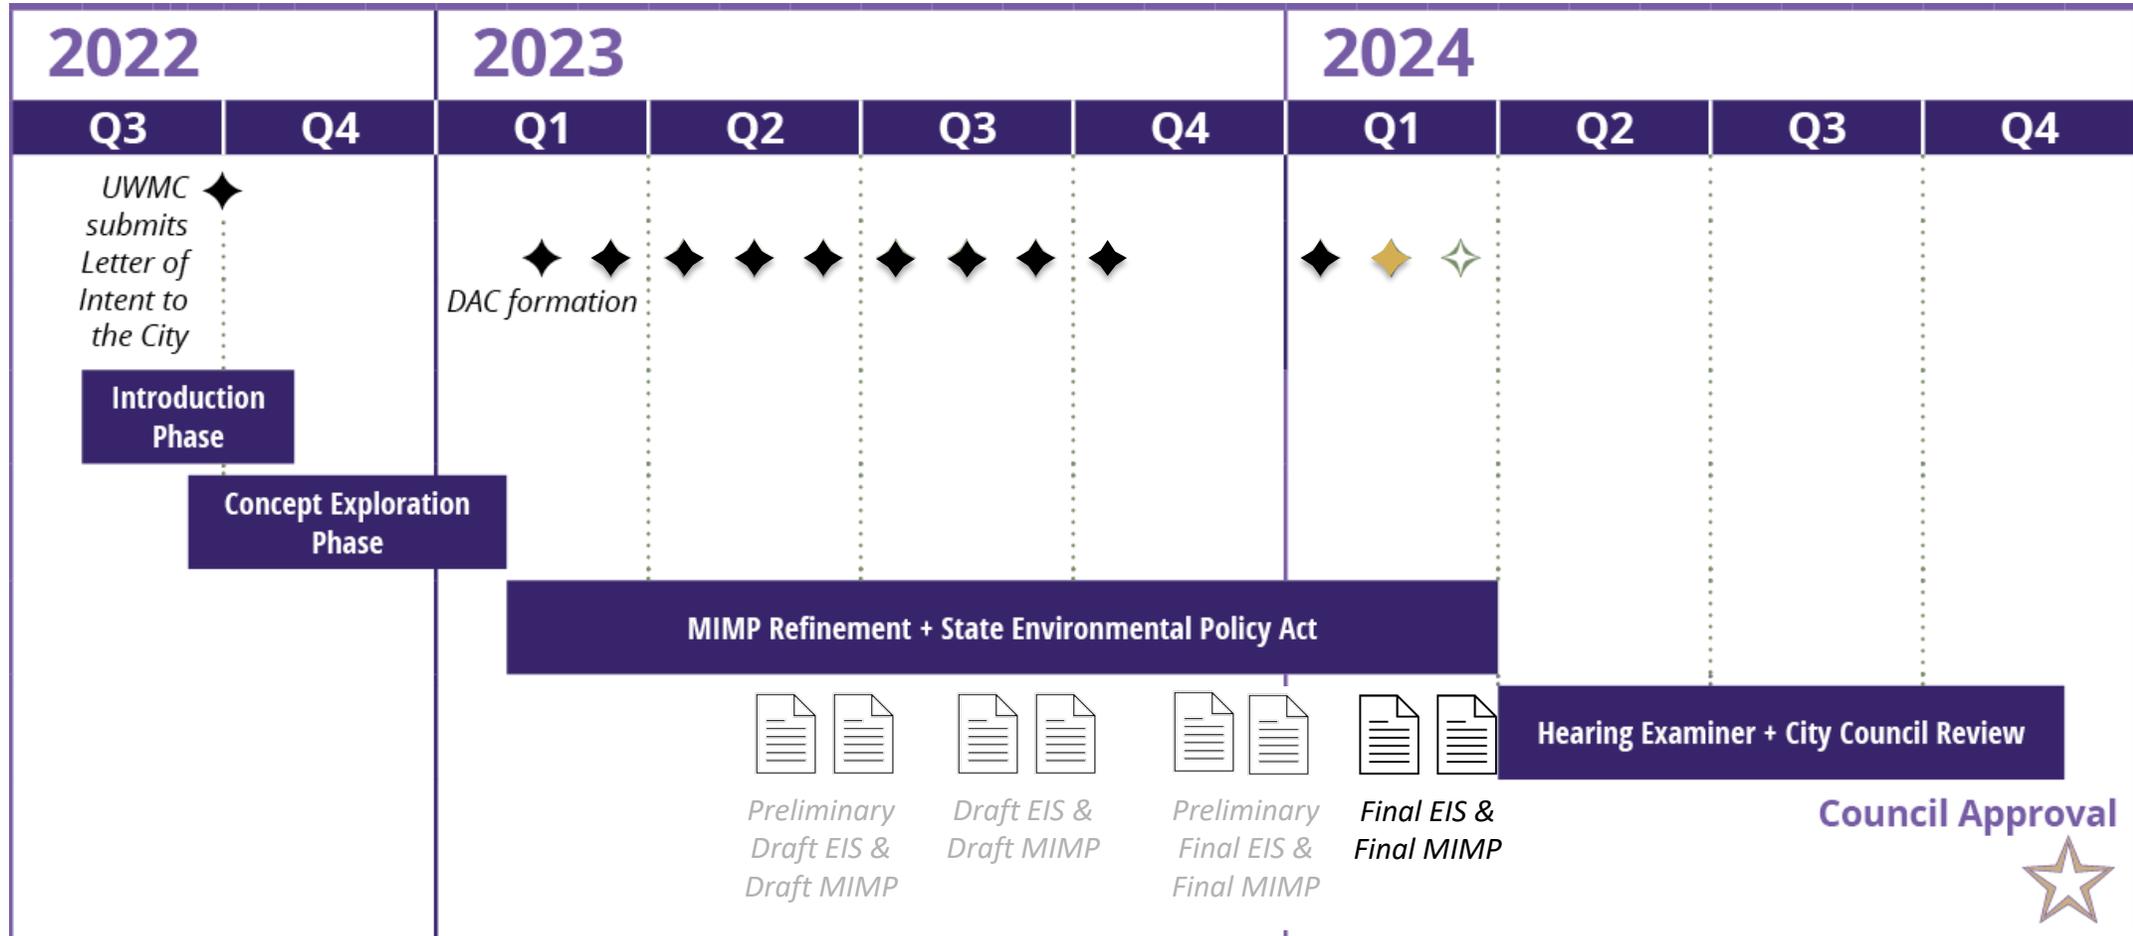

9. Monitoring and Evaluating

- **Participate in CTR survey and annual reporting requirements**
- **Conduct vehicle and bicycle demand studies along with the CTR report**

DAC PFMIMP/EIS Comment Letter

Public Comment

Anticipated MIMP Schedule

◆ Development Advisory Committee (DAC) meetings

DAC Meeting Schedule

Introductory Meeting	February 1, 2023	<ul style="list-style-type: none"> • Introductions DON/Committee • DAC Orientation
Meeting #1	March 23, 2023	<ul style="list-style-type: none"> • Chair/Vice-Chair Elections • Presentation and Discussion of Concept Plan & SEPA EIS Scoping Process
