

Seattle City Employees' Retirement System

Member Self-Service Calculator Expanded to Provide Better Estimates!

We've heard your feedback requesting greater estimate capability through the [Member Self Service \(MSS\) Portal](#) and we are excited to announce the expanded calculator tool!

Originally, the calculator allowed members to produce a basic, unmodified benefit estimate. The new calculator is more comprehensive and now provides estimates for [benefit options A – E](#), as well as the unmodified benefit. Members can also add additional information for more accurate estimates, including portability hours and your spouse's birth date, which is needed for Option D and E estimates.

Estimates produced by the MSS calculator are helpful for a general understanding of your SCERS pension benefit.

For a formal estimate, where SCERS verifies your service credit, salary, and contributions, please submit a Benefit Estimate Request to SCERS. More information on how to submit a formal Benefit Estimate Request can be found on SCERS website under [Forms and Publications](#).

Members close to retirement (within a few years), should submit a formal [Benefit Estimate Request Form](#) which is available on our website. The form is available to submit [via Adobe Sign](#) for your convenience.

Please email us at scersmss@seattle.gov if you have any questions about the MSS Calculator.
