## NORTH SEATTLE NEIGHBORHOOD GREENWAY

What's a neighborhood greenway?  
Neighborhood greenways are safer, calmer residential streets for you, your family, and neighbors. We make people walking and biking the priority on residential streets.

Greenways can include:

- 20 mph speed limit signs
- speed humps to calm traffic
- stop signs for side streets crossing the greenway
- signs and pavement markings to help people find their way
- easier crossings of busy streets with crosswalks, flashing beacons, or traffic signals

## MOST PROMISING ROUTE

We've been working with community members from Crown Hill, Greenwood, Licton Springs, and Northgate since summer 2016 to select a route for a new east-west neighborhood greenway to be built in 2018.

Hundreds of people gave feedback on our project through public meetings, site visits with community members, online survey, and direct communication.

We heard a lot of requests for a neighborhood greenway with:

- slower speeds on residential streets
- safer crossings at busy intersections
- flatter routes with less cut-through traffic
- improved connections to schools, parks, transit, and local businesses
