

BEACON HILL HEALTHY STREET IMPROVEMENTS COMING!

As soon as **Spring 2023**, we will be installing permanent signage with a concrete block base and new painted curb space around it at each intersection from S Spokane St to S Massachusetts St. Unauthorized on-street parking located within 20ft of the intersection will be removed for new installation.

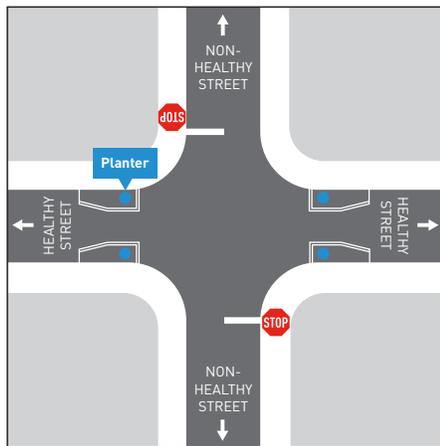

A **permanent Healthy Street** means that the street will continue to be open for people walking, rolling, biking, and playing, and closed to pass-through traffic.

What does this mean for drivers?

- People driving who need to get to homes and destinations along Beacon Hill Healthy Streets are still able to drive on these streets; drivers should use extra caution and yield to people
- People enjoying the street should be mindful of drivers trying to get to homes and destinations as well

ADOPT A HEALTHY STREET PLANTER

For permanent Healthy Street locations, we can install planters at Healthy Street intersections (see diagram).

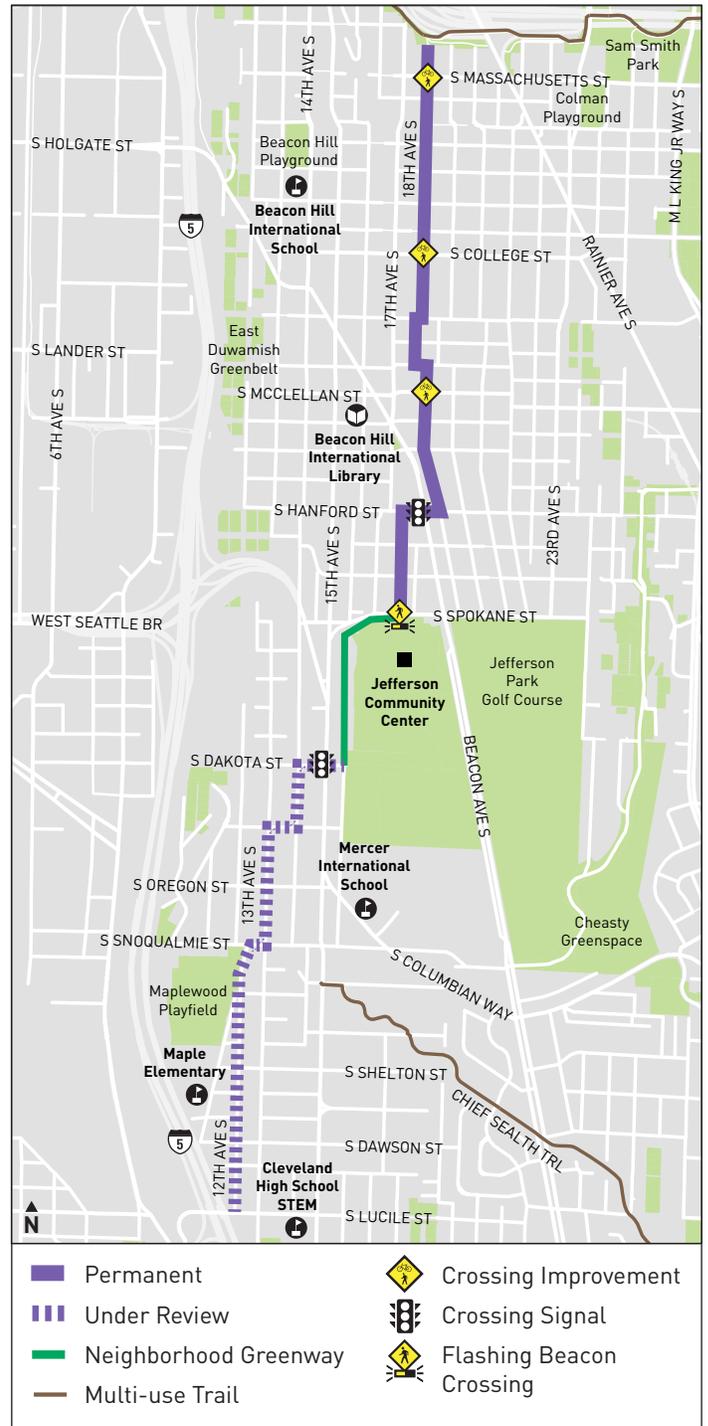

Healthy Street planters will need to be watered and maintained by neighbors.

If you are interested in requesting and taking care of a planter at your Healthy Street, please fill visit our webpage and complete our form and maintenance agreement.
