

# 3rd Ave S and S Main St Bus Stop Improvements

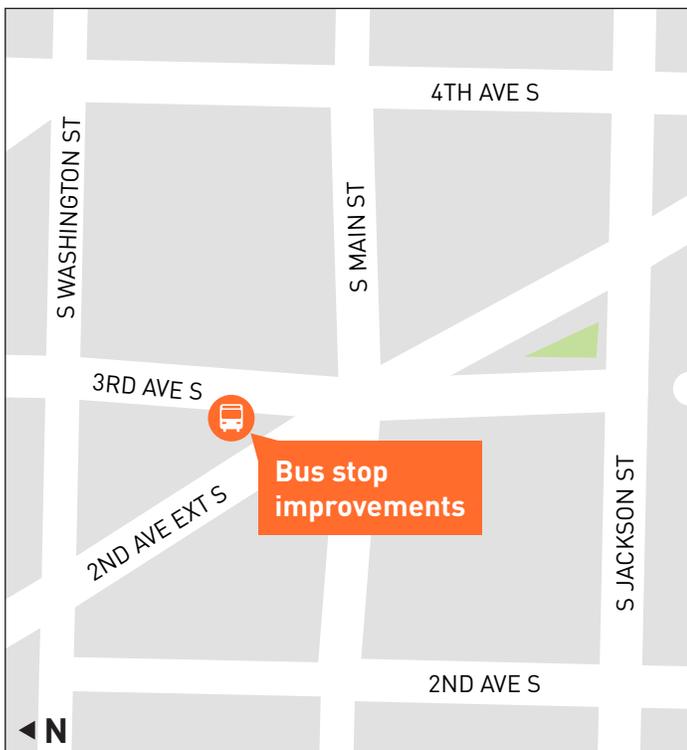

Creating a safer, more accessible, and more comfortable bus stop

## Project Overview

We're improving the bus stop on 3rd Ave S between S Washington St and S Main St to create a safer, more accessible, and more comfortable experience for people waiting for the bus. The project will help improve bus travel times and reliability by creating a better functioning bus stop and repairing and reconfiguring the street.

We're designing and building this project in partnership with King County Metro. This project is part of the Third Avenue Transit Corridor Improvements to improve transit connections and reliability on one of Seattle's most heavily-used transit corridors.

## Project Map

## Schedule

**Spring 2022:** Early project design

**Early 2024:** Complete project design

**Summer 2024:** Construction begins

**End of 2024:** Construction complete

Project schedule subject to change.

## Project Design

Project improvements include:

- Widening sidewalks
- Repainting crosswalks
- Adding pedestrian lighting
- Planting new trees
- Adding other bus stop features including bus shelters, seating, real-time bus arrival information, and an ORCA card reader
- Installing public art and wayfinding signage

We're making other changes to the street to help buses move more smoothly and efficiently, including:

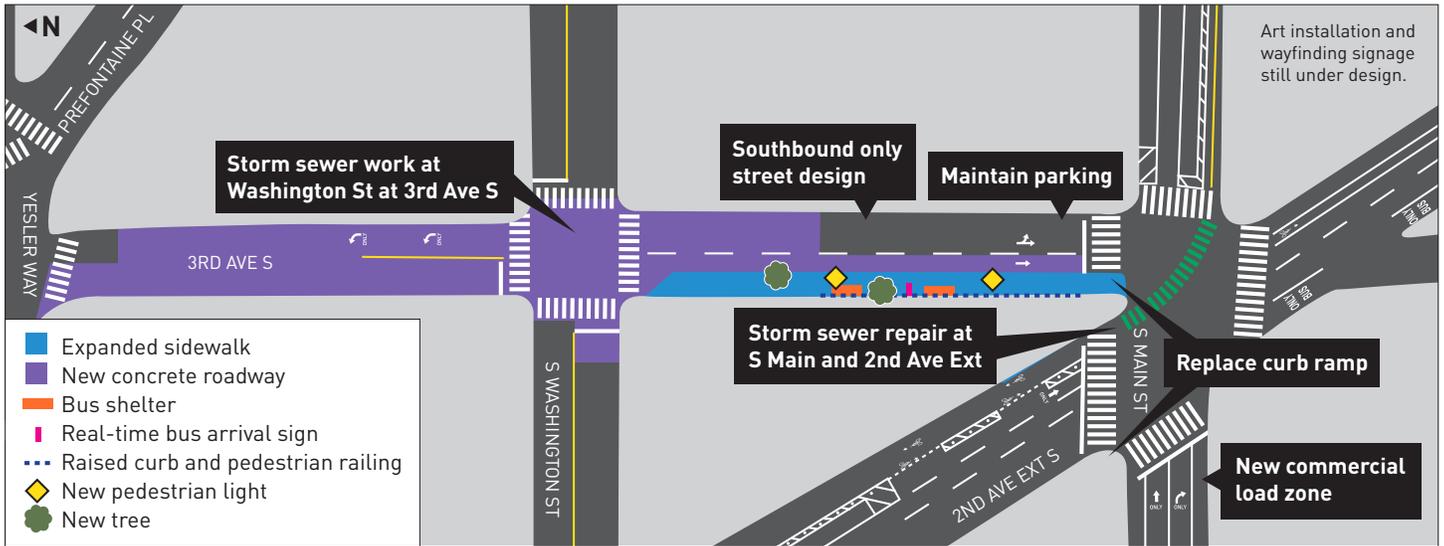

- Repairing the road next to the bus stop with new concrete paving
- Changing 3rd Ave S to be southbound only between S Washington St and S Main St, and keeping the parking on the east side of the street
- Repaving 3rd Ave S between Yesler Way and S Washington St

Seattle Public Utilities will also make repairs to the storm sewer at S Main St and 2nd Ave Extension as part of this project.

### PROJECT INFORMATION & CONTACT
