## Share Your Feedback About Transit Improvements on Rainier Ave S

Take our survey to tell us what you think about expanding bus lanes and your experience traveling on Rainier Ave S.

King County Metro and the Seattle Department of Transportation are working on improving bus reliability by adding bus-only lanes on sections of Rainier Ave S.

We want to hear how this change and other potential changes can improve your experience riding the bus. Your feedback will help inform how we expand the bus lanes and future investments to improve transit.

### Take the Survey by November 13
