HOUSEHOLD INCOME

Our programs use *gross household income* to determine eligibility. This is the *combined* income of all household members 18 years of age or older, and before taxes and deductions.

The table below outlines the maximum gross household income allowed for each program based on your household size. To determine eligibility, pick the row in the table that matches the total number of people in your household (including children).

You are eligible for the program if your income is LESS THAN or EQUAL TO the income in the row on the chart. You will notice that the income levels for the Utility Discount Program are lower than for Emergency Bill Assistance. If you are not eligible for the discount, you may still be eligible for emergency assistance and Project Share.
