

2023 Fourth Quarter

# Surveillance Technology Determination Report

Seattle Information Technology

## Summary

The Privacy Office received 47 total requests for privacy reviews during Q4 of 2023. 47 technologies and projects were applicable for this report. 3 of the technologies reviewed during Q4 of 2023 were determined to be surveillance technology.

## About This Report

The Seattle City Council passed [SMC 14.18](#) ("Surveillance Ordinance") to provide greater transparency to City Council and the public when the City acquires technology that meets the City's criteria of surveillance. In addition to review and approval requirements for new and existing technologies, the Surveillance Ordinance requires the CTO to submit a quarterly report to Council of all technology acquisitions. This report provides a list of all such technology acquisitions, the process followed, and the determinations for each of the technologies reviewed.

## Ordinance Requirement

This document is prepared pursuant to SMC 14.18.020.B.3, which states:

*The CTO shall, by no later than 30 days following the last day of each quarter, submit to Council, by filing with the City Clerk and providing an electronic copy to the chair of the committee responsible for technology matters, the co-chairs of the Working Group, the City Auditor, the Inspector General for Public Safety, and the Director of Central Staff, a surveillance technology determination list that includes all technology from that quarter that was reviewed under the process established in subsection 14.18.020.B.1, along with supporting information to explain the justification for the disposition of items on the list. The CTO shall also post the list to the City's website.*

## How This List Was Compiled

City staff must submit a Privacy and Surveillance Assessment (PSA) before new non-standard technology may be acquired. The assessment is used to determine if a given technology meets the City's definition of "surveillance technology" as defined by the City's Surveillance Policy. City staff were informed of this new process through an all-City email, engagement meetings with critical stakeholders such as IT Client Solutions Directors, financial leadership, and project managers. The report includes technologies and projects reviewed through the PSA process between October 1, 2023 and December 31, 2023. If a technology is discovered to have been acquired outside of this process, the CTO will inform Council. Inapplicable requests for review (for example requests for standard software, redundant requests, consultant contracts, etc.) were removed.

## Table of Department Acronyms

The following department acronyms are used in this report and are provided as a reference:

<b>Acronym</b>	<b>Department</b>
<b>ARTS</b>	Office of Arts and Culture
<b>AUD</b>	Office of the City Auditor
<b>CARE</b>	Community Assisted Response and Engagement
<b>CBO</b>	City Budget Office
<b>CEN</b>	Seattle Center
<b>CIV</b>	Civil Service Commission
<b>CPC</b>	Community Police Commission
<b>DEEL</b>	Department of Education and Early Learning
<b>DON</b>	Department of Neighborhoods
<b>SDOT</b>	Seattle Department of Transportation
<b>EEC</b>	Ethics and Elections
<b>FAS</b>	Finance and Administrative Services
<b>HSD</b>	Human Service Department
<b>HXM</b>	Office of Hearing Examiner
<b>OIRA</b>	Office of Immigrant and Refugee Affairs
<b>ITD</b>	Information Technology Department
<b>LAW</b>	Law Department
<b>LEG</b>	Legislative Department
<b>MOS</b>	Mayor's Office
<b>OCR</b>	Office for Civil Rights
<b>OED</b>	Office of Economic Development
<b>OED</b>	Office of Emergency Management
<b>OH</b>	Office of Housing
<b>OIG</b>	Office of the Inspector General
<b>OIR</b>	Office of Intergovernmental Relations

<b>OLS</b>	Office of Labor Standards
<b>OSE</b>	Office of Sustainability and Environment
<b>OPCD</b>	Office of Planning & Community Development
<b>PKS</b>	Seattle Parks and Recreation
<b>PPN</b>	Police Pension
<b>RET</b>	Seattle City Employees' Retirement
<b>SDCI</b>	Seattle Department of Construction & Inspections
<b>SCL</b>	Seattle City Light
<b>SFD</b>	Seattle Fire Department
<b>SDHR</b>	Seattle Department of Human Resources
<b>SMC</b>	Seattle Municipal Court
<b>SPD</b>	Seattle Police Department
<b>SPL</b>	Seattle Public Library
<b>SPU</b>	Seattle Public Utilities

## Surveillance Technologies

Department	Case No.	Reviewed Item
SPD	4678	Closed Circuit Television Camera Systems

### Inclusion criteria

The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

### Description

CCTV systems are camera systems operated by the city and placed in areas open to the public. These cameras allow for live viewing and recording of activity in public areas. Additionally, CCTV systems can include programs that allow for community owned camera equipment to be accessed by SPD on an opt-in basis.

Department	Case No.	Reviewed Item
SPD	4729	Real Time Crime Center Software

### Inclusion criteria

The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

### Description

Fusus RTC3 is a software solution that pulls multiple sources of information into a "single pane of glass" to enhance a department's ability to utilize information to improve responses to incidents. This is accomplished through various capabilities:

fūsusONE™ is the mapping system that provides the foundation for the overlay of the other technologies. It includes roads, building layouts (when provided), and various other layers, including beat/sector boundaries.

fūsusCORE™ is a device that is placed on camera systems (private systems can opt in) to provide the feed to Fusus. The cores come in various levels that allow various numbers of cameras, as well as AI capabilities (addressed below).

The system is fully opt in at the discretion of the camera owners. Users can set up conditional sharing as well, meaning they can determine the parameters of what, how, and when their camera feeds are shared. Recordings are transitory in nature.

<b>Department</b>	<b>Case No.</b>	<b>Reviewed Item</b>
SPD	4685	Acoustic Gunshot Location System

#### **Inclusion criteria**

The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

#### **Description**

Acoustic Gunshot Location System (AGLS) are systems that utilize microphones placed in a defined geographic area that are programmed to detect the sound of gunshots and alert police and 911 when and where a shooting incident has occurred. Some AGLS use fully automated processes, where others augment the automated detection with human verification. The system will not have the ability to record conversations or sounds other than gunshots.

## **Non-Surveillance Technologies**

---

Technologies that were reviewed and were not determined to be surveillance technologies have their reviews detailed in the supplemental materials appendix.

# Surveillance Technology Criteria Review

10/5/2023

## Technology Description

Technology Name	Shiftboard		
Description	This is the app for the Shiftboard Scheduling tool used by all Recreation Division.		
Department	PKS	Case No.	4683

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**No** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

N/A	Technology that is used to collect data where an individual knowingly and voluntarily provides the data.
N/A	Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.
N/A	Technologies used for everyday office use.
N/A	Body-worn cameras.
N/A	Cameras installed in or on a police vehicle.
N/A	Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.
N/A	Cameras installed on City property solely for security purposes.
N/A	Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.
N/A	Technology that monitors only City employees in the performance of their City functions

### Do any of the following inclusion criteria apply?

N/A	The technology disparately impacts disadvantaged groups.
N/A	There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.
N/A	The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.
N/A	The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

## Result

### **Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

# Surveillance Technology Criteria Review

## Technology Description

<b>Technology Name</b>	MS Teams Integration for Limeade		
<b>Description</b>	<p>The integration with the Limeade hosted site and teams enables a direct access point between City Employees and Limeade.</p> <p>The aim of this is to enable broader staff engagement with this well-being benefit.</p> <p>The Teams app has a limited snapshot of information about employee participation in the program. The integration enables staff to take quizzes and collaborate with other staff on well-being topics.</p>		
<b>Department</b>	SHR	<b>Case No.</b>	4650

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**No** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

<b>N/A</b>	Technology that is used to collect data where an individual knowingly and voluntarily provides the data.
<b>N/A</b>	Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.
<b>N/A</b>	Technologies used for everyday office use.
<b>N/A</b>	Body-worn cameras.
<b>N/A</b>	Cameras installed in or on a police vehicle.
<b>N/A</b>	Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.
<b>N/A</b>	Cameras installed on City property solely for security purposes.

N/A Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.

---

N/A Technology that monitors only City employees in the performance of their City functions

---

**Do any of the following inclusion criteria apply?**

N/A The technology disparately impacts disadvantaged groups.

---

N/A There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.

---

N/A The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.

---

N/A The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

---

**Result**

**Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

### Do any of the following inclusion criteria apply?

N/A	The technology disparately impacts disadvantaged groups.
N/A	There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.
N/A	The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.
N/A	The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

## Result

### **Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

## Technology Description

<b>Technology Name</b>	5-Color 44-inch TX-4100 large-format printer		
<b>Description</b>	5-Color 44-inch TX-4100 large-format printer		
<b>Department</b>	DOT	<b>Case No.</b>	4701

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**No** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

**N/A** Technology that is used to collect data where an individual knowingly and voluntarily provides the data.

**N/A** Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.

**N/A** Technologies used for everyday office use.

**N/A** Body-worn cameras.

**N/A** Cameras installed in or on a police vehicle.

**N/A** Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.

**N/A** Cameras installed on City property solely for security purposes.

**N/A** Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.

**N/A** Technology that monitors only City employees in the performance of their City functions

### Do any of the following inclusion criteria apply?

**N/A** The technology disparately impacts disadvantaged groups.

N/A	There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.

### Do any of the following inclusion criteria apply?

<b>N/A</b>	The technology disparately impacts disadvantaged groups.
<b>N/A</b>	There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.
<b>N/A</b>	The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.
<b>N/A</b>	The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

## Result

### **Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

# Surveillance Technology Criteria Review

11/7/2023

## Technology Description

<b>Technology Name</b>	Efforts To Outcomes		
<b>Description</b>	A web-based platform used to intake client level data from program partners		
<b>Department</b>	HSD	<b>Case No.</b>	4731

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**No** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

<b>N/A</b>	Technology that is used to collect data where an individual knowingly and voluntarily provides the data.
<b>N/A</b>	Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.
<b>N/A</b>	Technologies used for everyday office use.
<b>N/A</b>	Body-worn cameras.
<b>N/A</b>	Cameras installed in or on a police vehicle.
<b>N/A</b>	Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.
<b>N/A</b>	Cameras installed on City property solely for security purposes.
<b>N/A</b>	Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.
<b>N/A</b>	Technology that monitors only City employees in the performance of their City functions

### Do any of the following inclusion criteria apply?

<b>N/A</b>	The technology disparately impacts disadvantaged groups.
------------	--

N/A	There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.
N/A	The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.
N/A	The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

## Result

### **Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

# Surveillance Technology Criteria Review

11/22/2023

## Technology Description

<b>Technology Name</b>	LoJack		
<b>Description</b>	<p>LoJack is a system that allows officers to track and locate stolen vehicles equipped with this technology. LoJack is installed by either dealerships or upfitters on privately owned vehicles. When the vehicle is reported stolen and entered in to the state WACIC database, radio towers in the area transmit a signal that activates a radio transmitter hidden within the stolen vehicle. That transmitter sends a radio signal with a code specific to that vehicle. Police patrol cars equipped with LoJack tracking receiver boxes receive the signal and code. The tracker gives the officer a signal direction and signal strength. Using that information, officers are able to locate the vehicle and recover it.</p> <p>LoJack is transitioning to a GPS based system.</p>		
<b>Department</b>	SPD	<b>Case No.</b>	4934

<b>N/A</b>	Body-worn cameras.
<b>N/A</b>	Cameras installed in or on a police vehicle.
<b>N/A</b>	Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.
<b>N/A</b>	Cameras installed on City property solely for security purposes.
<b>N/A</b>	Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.
<b>N/A</b>	Technology that monitors only City employees in the performance of their City functions

### Do any of the following inclusion criteria apply?

<b>N/A</b>	The technology disparately impacts disadvantaged groups.
------------	--

N/A	There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.
N/A	The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.
N/A	The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

## Result

### **Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

## Technology Description

<b>Technology Name</b>	Zotero Connector		
<b>Description</b>	Zotero Connector is a browser extension for Zotero, which is a software that helps users collect, organize, annotate, and cite their bibliographic sources.		
<b>Department</b>	LEG	<b>Case No.</b>	4745

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**No** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

<b>N/A</b>	Technology that is used to collect data where an individual knowingly and voluntarily provides the data.
<b>N/A</b>	Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.
<b>N/A</b>	Technologies used for everyday office use.
<b>N/A</b>	Body-worn cameras.
<b>N/A</b>	Cameras installed in or on a police vehicle.
<b>N/A</b>	Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.
<b>N/A</b>	Cameras installed on City property solely for security purposes.
<b>N/A</b>	Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.
<b>N/A</b>	Technology that monitors only City employees in the performance of their City functions

**Do any of the following inclusion criteria apply?**

<b>N/A</b>	The technology disparately impacts disadvantaged groups.
<b>N/A</b>	There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.
<b>N/A</b>	The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.
<b>N/A</b>	The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

**Result**

**Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

## Technology Description

<b>Technology Name</b>	Real Time Crime Center Software		
<b>Description</b>	<p>Fusus RTC3 is a software solution that pulls multiple sources of information into a "single pane of glass" to enhance a department's ability to utilize information to improve responses to incidents. This is accomplished through various capabilities:</p> <p>fūsusONE™ is the mapping system that provides the foundation for the overlay of the other technologies. It includes roads, building layouts (when provided), and various other layers, including beat/sector boundaries.</p> <p>fūsusCORE™ is a device that is placed on camera systems (private systems can opt in) to provide the feed to Fusus. The cores come in various levels that allow various numbers of cameras, as well as AI capabilities (addressed below). The system is fully opt in at the discretion of the camera owners. Users can set up conditional sharing as well, meaning they can determine the parameters of what, how, and when their camera feeds are shared. Recordings are transitory in nature. The Core serves as a buffering device for the camera, keeping all footage in possession of the camera owner until requested by the Department.</p>		
<b>Department</b>	SPD	<b>Case No.</b>	4729

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**Yes** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

**N/A** Technology that is used to collect data where an individual knowingly and voluntarily provides the data.

**N/A** Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.

N/A	Technologies used for everyday office use.
N/A	Body-worn cameras.
N/A	Cameras installed in or on a police vehicle.
N/A	Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.
N/A	Cameras installed on City property solely for security purposes.
N/A	Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.
N/A	Technology that monitors only City employees in the performance of their City functions

**Do any of the following inclusion criteria apply?**

No	The technology disparately impacts disadvantaged groups.
N/A	There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.
No	The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.
Yes	The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

**Result**

**Does the technology meet the criteria for surveillance technology and require a review?**

The technology will require a Surveillance Impact Report. The project technology meets the definition, does not fall under any exclusion criteria, and meets at least one inclusion criteria. This is based on the current information available. The determination is subject to change based on new information or City Council action.
