

2024 Fourth Quarter

# Surveillance Technology Determination Report

Seattle Information Technology

## Summary

The Privacy Office received 44 total requests for privacy reviews during Q4 of 2024. 44 technologies and projects were applicable for this report. Two (2) of the technologies reviewed during Q4 of 2024 met the ordinance definition of a surveillance technology. One (1) of the technologies reviewed during Q4 of 2024 met the ordinance definition of a surveillance technology and [went through the Surveillance Impact Report \(SIR\) process](#). One (1) met the ordinance definition but is considered exempt from the Surveillance Impact Report (SIR) process under ordinance-defined exclusion criteria.

## About This Report

The Seattle City Council passed [SMC 14.18](#) ("Surveillance Ordinance") to provide greater transparency to City Council and the public when the City acquires technology that meets the City's criteria of surveillance. In addition to review and approval requirements for new and existing technologies, the Surveillance Ordinance requires the Chief Technology Officer (CTO) to submit a quarterly report to City Council of all technology acquisitions.

This report provides a list of all such technology acquisitions, the process followed, and the determinations for each of the technologies reviewed.

## Ordinance Requirement

This document is prepared pursuant to SMC 14.18.020.B.3, which states:

*"The CTO shall, by no later than 30 days following the last day of each quarter, submit to Council, by filing with the City Clerk and providing an electronic copy to the chair of the committee responsible for technology matters, the co-chairs of the Working Group, the City Auditor, the Inspector General for Public Safety, and the Director of Central Staff, a surveillance technology determination list that includes all technology from that quarter that was reviewed under the process established in subsection 14.18.020.B.1, along with supporting information to explain the justification for the disposition of items on the list. The CTO shall also post the list to the City's website."*

## How This List Was Compiled

City staff must submit a Privacy and Surveillance Assessment (PSA) before any new non-standard technology may be acquired. The assessment is used to determine if a given technology meets the City's definition of "surveillance technology" as defined by the City's Surveillance Policy. City staff were informed of this new process through an all-City email, engagement meetings with critical stakeholders such as IT Client Solutions Directors, financial leadership, and project managers. The report includes technologies and projects reviewed through the PSA process between October 1, 2024, and December 31, 2024. If a technology is discovered to have been acquired outside of this process, the CTO will inform City Council. Inapplicable requests for review (for example requests for standard software, redundant requests, consultant contracts, etc.) were removed.

## Table of Department Acronyms

The following department acronyms are used in this report and are provided as a reference:

<b>Acronym</b>	<b>Department</b>
<b>CEN</b>	Seattle Center
<b>Citywide</b>	Citywide
<b>DEEL</b>	Department of Education and Early Learning
<b>SDOT</b>	Seattle Department of Transportation
<b>FAS</b>	Finance and Administrative Services
<b>ITD</b>	Information Technology Department
<b>OCR</b>	Office for Civil Rights
<b>OLS</b>	Office of Labor Standards
<b>OSE</b>	Office of Sustainability and Environment
<b>SCL</b>	Seattle City Light
<b>SFD</b>	Seattle Fire Department
<b>SPD</b>	Seattle Police Department
<b>SPU</b>	Seattle Public Utilities

## Surveillance Technologies: SIR Required

<b>Technology Name</b>	Axon Fusus Real Time Crime Center Software		
<b>Description</b>	<p>Fusus RTC3 would be used by the Seattle Police Real Time Crime Center (RTCC) to gather information from various feeds (cameras, 911, ALPR, CAD, RMS) and organize it for better, more timely use by officers and analysis in the RTCC as well as in the field. The information would also be captured as evidence to support investigative and prosecutorial efforts after the incident has concluded.</p> <p><a href="#"><u>This technology went through the SIR process and was passed by Council on 10/8/2024</u></a></p>		
<b>Department</b>	SPD	<b>Case No.</b>	4729

## Surveillance Technologies: No SIR Required Due to Exclusion Criteria

Please note: The below technology is exempt from the SIR process due to meeting the following exclusion criteria:

- *Technology that is used to collect data where an individual knowingly and voluntarily provides the data.*
- *Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.*
- *Cameras installed on City property solely for security purposes*

<b>Technology Name</b>	Liveable Cities		
<b>Description</b>	Portable, remote camera that affixes to street light poles. Security cameras to monitor EV Stations due to frequent cable theft. Signs are mounted to indicate that cameras are monitoring area: there is no audio. Additionally, cameras only face city equipment and black out any other areas of public view.		
<b>Department</b>	SCL	<b>Case No.</b>	5492

## **Non-Surveillance Technologies**

---

Technologies that were reviewed and were not determined to be surveillance technologies have their reviews detailed in the supplemental materials appendix.

# Surveillance Technology Criteria Review

10/2/2024

## Technology Description

<b>Technology Name</b>	Watershed Protection IMS		
<b>Description</b>	<p>This project is replacing the permit management currently being provided by the CAPS system.</p> <p>CAPS needs to be replaced. Data collected in the new system will be the same as the old system; permits, permitted equipment and permitted crews.</p> <p>The new system will also include a mobile application to check for valid permits and issue permit violation notices, inspection for invasive species, incident reporting and daily logs.</p>		
<b>Department</b>	SPU	<b>Case No.</b>	2195

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**No** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

<b>N/A</b>	Technology that is used to collect data where an individual knowingly and voluntarily provides the data.
<b>N/A</b>	Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.
<b>N/A</b>	Technologies used for everyday office use.
<b>N/A</b>	Body-worn cameras.
<b>N/A</b>	Cameras installed in or on a police vehicle.
<b>N/A</b>	Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.
<b>N/A</b>	Cameras installed on City property solely for security purposes.
<b>N/A</b>	Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.

N/A Technology that monitors only City employees in the performance of their City functions

**Do any of the following inclusion criteria apply?**

N/A The technology disparately impacts disadvantaged groups.

---

N/A There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.

---

N/A The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.

---

N/A The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

**Result**

**Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

# Surveillance Technology Criteria Review

10/3/2024

## Technology Description

<b>Technology Name</b>	Liveable Cities		
<b>Description</b>	Portable, remote camera that affixes to street light poles. Security cameras to monitor EV Stations due to frequent cable theft. Signs are mounted to indicate that cameras are monitoring area: there is no audio. Additionally, cameras only face city equipment and black out any other areas of public view.		
<b>Department</b>	SCL	<b>Case No.</b>	5492

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**Yes** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

<b>No</b>	Technology that is used to collect data where an individual knowingly and voluntarily provides the data.
<b>Yes</b>	Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.
<b>Yes</b>	Technologies used for everyday office use.
<b>No</b>	Body-worn cameras.
<b>No</b>	Cameras installed in or on a police vehicle.
<b>No</b>	Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.
<b>Yes</b>	Cameras installed on City property solely for security purposes.
<b>Yes</b>	Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.
<b>No</b>	Technology that monitors only City employees in the performance of their City functions

**Do any of the following inclusion criteria apply?**

<b>No</b>	The technology disparately impacts disadvantaged groups.
<b>No</b>	There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.
<b>Yes</b>	The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.
<b>No</b>	The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

**Result**

**Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology meets the definition of a surveillance technology but falls under exclusion criteria. Therefore, this technology will not require a Surveillance Impact Report. This is based on the current information available. The determination is subject to change based on new information or City Council action.

# Surveillance Technology Criteria Review

10/3/2024

## Technology Description

<b>Technology Name</b>	Synthesia for ITD		
<b>Description</b>	Synthesia’s service is a video creation platform that enables business users to access Synthesia’s suite of tools and templates to generate video presentations. Using the services, users can build scenes, create scripts and then direct avatars to read those scripts and act them out in a realistic manner.		
<b>Department</b>	ITD	<b>Case No.</b>	5499

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**No** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

<b>N/A</b>	Technology that is used to collect data where an individual knowingly and voluntarily provides the data.
<b>N/A</b>	Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.
<b>N/A</b>	Technologies used for everyday office use.
<b>N/A</b>	Body-worn cameras.
<b>N/A</b>	Cameras installed in or on a police vehicle.
<b>N/A</b>	Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.
<b>N/A</b>	Cameras installed on City property solely for security purposes.
<b>N/A</b>	Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.
<b>N/A</b>	Technology that monitors only City employees in the performance of their City functions

**Do any of the following inclusion criteria apply?**

<b>N/A</b>	The technology disparately impacts disadvantaged groups.
<b>N/A</b>	There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.
<b>N/A</b>	The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.
<b>N/A</b>	The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

**Result**

**Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

# Surveillance Technology Criteria Review

10/3/2024

## Technology Description

<b>Technology Name</b>	Emergency Response Guidebook (ERG)		
<b>Description</b>	<p>PHMSA’s Emergency Response Guidebook (ERG) is the go-to resource for first responders during the initial phase of a dangerous goods or hazardous materials transportation incident.</p> <p>The ERG app is based on the latest edition of the ERG, to help responders quickly access critical information at their fingertips.</p> <p>In practical scenarios, such as responding to an overturned tractor trailer displaying a DOT hazmat placard, emergency responders can use the app to quickly identify the material associated with the placard and get guidance on how to respond effectively.</p>		
<b>Department</b>	SPD	<b>Case No.</b>	5587

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**No** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

<b>N/A</b>	Technology that is used to collect data where an individual knowingly and voluntarily provides the data.
<b>N/A</b>	Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.
<b>N/A</b>	Technologies used for everyday office use.
<b>N/A</b>	Body-worn cameras.
<b>N/A</b>	Cameras installed in or on a police vehicle.
<b>N/A</b>	Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.

N/A	Cameras installed on City property solely for security purposes.
N/A	Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.
N/A	Technology that monitors only City employees in the performance of their City functions

**Do any of the following inclusion criteria apply?**

N/A	The technology disparately impacts disadvantaged groups.
N/A	There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.
N/A	The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.
N/A	The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

**Result**

**Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

# Surveillance Technology Criteria Review

10/10/2024

## Technology Description

<b>Technology Name</b>	Ekahau Wifi Tester / Mapping unit		
<b>Description</b>	Ekahau sidekick is a handheld Wifi tester, local client must be installed on pc and requires license verification via login to Ekahau.		
<b>Department</b>	ITD	<b>Case No.</b>	5596

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**No** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

<b>N/A</b>	Technology that is used to collect data where an individual knowingly and voluntarily provides the data.
<b>N/A</b>	Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.

<b>N/A</b>	The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

**Result**

**Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

# Surveillance Technology Criteria Review

10/17/2024

## Technology Description

<b>Technology Name</b>	Aquasight ACE		
<b>Description</b>	Aquasight ACE will be providing a web-based pump station optimization and management services wastewater pump stations. Aquasight will collect real-time data from SPU's SCADA system and will perform real-time analytics to inform pump station operation and maintenance.		
<b>Department</b>	SPU	<b>Case No.</b>	5607

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**No** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

<b>N/A</b>	Technology that is used to collect data where an individual knowingly and voluntarily provides the data.
<b>N/A</b>	Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.
<b>N/A</b>	Technologies used for everyday office use.
<b>N/A</b>	Body-worn cameras.
<b>N/A</b>	Cameras installed in or on a police vehicle.
<b>N/A</b>	Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.
<b>N/A</b>	Cameras installed on City property solely for security purposes.
<b>N/A</b>	Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.
<b>N/A</b>	Technology that monitors only City employees in the performance of their City functions

**Do any of the following inclusion criteria apply?**

<b>N/A</b>	The technology disparately impacts disadvantaged groups.
<b>N/A</b>	There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.
<b>N/A</b>	The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.
<b>N/A</b>	The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

**Result**

**Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

# Surveillance Technology Criteria Review

10/17/2024

## Technology Description

<b>Technology Name</b>	Selectron		
<b>Description</b>	Selectron is a SaaS solution to be used internally with two critical pieces that will support SDOT Virtual Inspections. It enables SDOT inspection managers to allocate staff to specific inspections and provides the ability, via a mobile application, for inspectors to input inspection results.		
<b>Department</b>	DOT	<b>Case No.</b>	5611

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**No** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

<b>N/A</b>	Technology that is used to collect data where an individual knowingly and voluntarily provides the data.
<b>N/A</b>	Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.
<b>N/A</b>	Technologies used for everyday office use.
<b>N/A</b>	Body-worn cameras.
<b>N/A</b>	Cameras installed in or on a police vehicle.
<b>N/A</b>	Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.
<b>N/A</b>	Cameras installed on City property solely for security purposes.
<b>N/A</b>	Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.
<b>N/A</b>	Technology that monitors only City employees in the performance of their City functions

**Do any of the following inclusion criteria apply?**

<b>N/A</b>	The technology disparately impacts disadvantaged groups.
<b>N/A</b>	There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.
<b>N/A</b>	The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.
<b>N/A</b>	The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

**Result**

**Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

# Surveillance Technology Criteria Review

10/23/2024

## Technology Description

<b>Technology Name</b>	GitHub Enterprise		
<b>Description</b>	GitHub Enterprise is a code development platform similar to Azure DevOps. The product offers the ability for developers and development teams to collaborate on the code development process in a shared space; create automated workflows for code review, testing, and deployment; implement secure coding practices, review, and scanning check points; and more.		
<b>Department</b>	Citywide	<b>Case No.</b>	5617

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**No** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

### Do any of the following exclusion criteria apply?

<b>N/A</b>	Technology that is used to collect data where an individual knowingly and voluntarily provides the data.
<b>N/A</b>	Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.
<b>N/A</b>	Technologies used for everyday office use.
<b>N/A</b>	Body-worn cameras.
<b>N/A</b>	Cameras installed in or on a police vehicle.
<b>N/A</b>	Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.
<b>N/A</b>	Cameras installed on City property solely for security purposes.
<b>N/A</b>	Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.

N/A Technology that monitors only City employees in the performance of their City functions

**Do any of the following inclusion criteria apply?**

N/A The technology disparately impacts disadvantaged groups.

---

N/A There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.

---

N/A The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.

---

N/A The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

**Result**

**Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

11/21/2024

## Technology Description

<b>Technology Name</b>	Whelen Command Software		
<b>Description</b>	Whelen Command brings advanced features to all Whelen control systems. With Situation Based Integration, scene-specific functions can be created, utilizing various vehicle components. With Events, multiple user-defined rules can be created for specific scenarios and can be dependent on the state of your vehicle. These added features utilize automation, increasing officer and public safety.		
<b>Department</b>	SFD	<b>Case No.</b>	5639

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**No** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

<b>N/A</b>	Technology that is used to collect data where an individual knowingly and voluntarily provides the data.
<b>N/A</b>	Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.
<b>N/A</b>	Technologies used for everyday office use.
<b>N/A</b>	Body-worn cameras.
<b>N/A</b>	Cameras installed in or on a police vehicle.
<b>N/A</b>	Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.
<b>N/A</b>	Cameras installed on City property solely for security purposes.
<b>N/A</b>	Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.
<b>N/A</b>	Technology that monitors only City employees in the performance of their City functions

**Do any of the following inclusion criteria apply?**

<b>N/A</b>	The technology disparately impacts disadvantaged groups.
<b>N/A</b>	There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.
<b>N/A</b>	The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.
<b>N/A</b>	The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

**Result**

**Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

# Surveillance Technology Criteria Review

11/22/2024

## Technology Description

<b>Technology Name</b>	Axon Fusus Real Time Crime Center Software		
<b>Description</b>	<p>Fusus RTC3 would be used by the Seattle Police Real Time Crime Center to gather information from various feeds (cameras, 911, ALPR, CAD, RMS) and organize it for better, more timely use by officers and analysis in the RTCC as well as in the field. The information would also be captured as evidence to support investigative and prosecutorial efforts after the incident has concluded.</p> <p><a href="#">This technology went through the SIR process and was passed by Council on 10/8/2024.</a></p>		
<b>Department</b>	SPD	<b>Case No.</b>	4729

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**Yes** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

<b>N/A</b>	Technology that is used to collect data where an individual knowingly and voluntarily provides the data.
<b>N/A</b>	Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.
<b>N/A</b>	Technologies used for everyday office use.
<b>N/A</b>	Body-worn cameras.
<b>N/A</b>	Cameras installed in or on a police vehicle.
<b>N/A</b>	Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.
<b>N/A</b>	Cameras installed on City property solely for security purposes.

**N/A** Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.

---

**N/A** Technology that monitors only City employees in the performance of their City functions

---

**Do any of the following inclusion criteria apply?**

**No** The technology disparately impacts disadvantaged groups.

---

**N/A** There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.

---

**No** The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.

---

**No** The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

---

**Result**

**Does the technology meet the criteria for surveillance technology and require a review?**

The technology will require a Surveillance Impact Report. The project technology meets the definition, does not fall under any exclusion criteria, and meets at least one inclusion criteria. This is based on the current information available. The determination is subject to change based on new information or City Council action.

## Technology Description

<b>Technology Name</b>	BLTN		
<b>Description</b>	<p>BLTN is a cloud based, CJIS secure environment that provides a platform for dissemination of criminal information bulletins. Rather than relying on the current practice of creating PDF bulletins that are sent out in a less secure way, BLTN allows detectives to create online bulletins, which can include photos and videos of crimes/suspects/missing persons, that will better assist detectives in incident resolution. Additionally, BLTN creates a curated feed for the end user, ensuring they see the bulletins most important to them and their work. BLTN also facilitates communication between detectives handling related cases by alerting them to the possibility of a connection between their cases, for detectives to further investigate through standard investigative measures. BLTN modernizes the practice of criminal information sharing and bulletin dissemination, replacing SPD's end-of-life technology, all in a CJIS secure environment.</p> <p><a href="#">Please see PIA for further information.</a></p>		
<b>Department</b>	SPD	<b>Case No.</b>	5664

<b>N/A</b>	Technology that monitors only City employees in the performance of their City functions

**Do any of the following inclusion criteria apply?**

<b>N/A</b>	The technology disparately impacts disadvantaged groups.
<b>N/A</b>	There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.
<b>N/A</b>	The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.
<b>N/A</b>	The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

**Result**

**Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

## Technology Description

<b>Technology Name</b>	ForceMetrics		
<b>Description</b>	ForceMetrics provides law enforcement entities unified search capabilities, visualizations of public safety data, and data linkage from multiple existing data sources related to community impact, operational efficiencies, and performance metrics in order to identify community needs, measure success and mitigate risks, and Standard Support Services.  <a href="#">For more information, please see publicly posted PIA.</a>		
<b>Department</b>	SPD	<b>Case No.</b>	5572

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**No** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

<b>N/A</b>	Technology that is used to collect data where an individual knowingly and voluntarily provides the data.
<b>N/A</b>	Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.
<b>N/A</b>	Technologies used for everyday office use.
<b>N/A</b>	Body-worn cameras.
<b>N/A</b>	Cameras installed in or on a police vehicle.
<b>N/A</b>	Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.
<b>N/A</b>	Cameras installed on City property solely for security purposes.
<b>N/A</b>	Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.

N/A Technology that monitors only City employees in the performance of their City functions

**Do any of the following inclusion criteria apply?**

N/A The technology disparately impacts disadvantaged groups.

---

N/A There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.

---

N/A The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.

---

N/A The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

**Result**

**Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

## Technology Description

<b>Technology Name</b>	Talkspace Telehealth Platform		
<b>Description</b>	<p>Talkspace offers online therapy services tailored to teenagers and young adults providing a convenient and accessible platform for mental health support. Services are provided one-on-one and are confidential.</p> <p>Through the platform, individuals connect with licensed therapists using secure messaging, video calls, or audio communication. The service allows for flexibility, enabling teens to share their thoughts and feelings on their own schedule rather than waiting for a traditional appointment.</p> <p>Therapists specializing in adolescent issues, such as anxiety, depression, peer relationships, and family challenges, help teens navigate difficult emotions and life transitions in a safe, judgment-free environment.</p>		
<b>Department</b>	DOE	<b>Case No.</b>	5580

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**No** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

<b>N/A</b>	Technology that is used to collect data where an individual knowingly and voluntarily provides the data.
<b>N/A</b>	Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.
<b>N/A</b>	Technologies used for everyday office use.
<b>N/A</b>	Body-worn cameras.
<b>N/A</b>	Cameras installed in or on a police vehicle.

N/A	Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.
N/A	Cameras installed on City property solely for security purposes.
N/A	Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.

## Technology Description

<b>Technology Name</b>	Cellular Vehicle-to-Everything (C-V2X)		
<b>Description</b>	<p>The proposed product is a connected vehicle-to-everything (CV2X) solution leveraging T-Mobile's 5G services and a Derq edge server. The system integrates a camera-based detection system to identify the presence of vehicles, pedestrians, and bicyclists in real time. Upon detection, the system will automatically trigger a rapid flashing beacon (RFB) to enhance crosswalk safety. The Derq edge server processes video data to detect road users and broadcasts Basic Safety Messages (BSMs) and Personal Safety Messages (PSMs) to connected vehicles via On-Board Units (OBUs) and mobile devices via 5G. The hardware consists of a Derq edge server, a traffic camera, OBUs installed in city fleet vehicles, and mobile devices for testing. All work, including installation, configuration, and testing, will be performed by SDOT.</p> <p>The use case of PSMs is being piloted by SDOT employees only.</p>		
<b>Department</b>	DOT	<b>Case No.</b>	5578

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**No** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice.
